Application Diagram

Product Features

- Small size and light weight. The housing is made from SAMSUNG/COVESTRO's V0 flame retardant PC materials.
- Bluetooth 5.0 SIG Mesh with high networking capacity is reliable and stable.
- Convert Bluetooth to ELV signal; wireless and wired protocol work together.
- Control it on iOS or Android devices via Bluetooth.
- Support online upgrade. With ultra-low power consumption, it can be continuously powered on and off to reset it to factory defaults.
- Setting the soft start time and lighting status is supported.
- Work with Super Panel to achieve voice control, cloud scenes and automation.

Technical Specs

Model	CG-T
Wireless Protocol Type	Bluetooth 5.0 SIG Mesh
Output Signal	ELV
Input Voltage	100-240Vac
Operating Current	Max.1.5A
Output Power	Incandescent lamp or high-pressure halogen lamp: Max.110W [AC 120V], Max.220W [AC 220V] Dimmable LED: Max.80W [AC 120V], Max.180W [AC 220V]
Working Temperature	-20°C-50°C
Product Size(L×W×H)	52×59×20(mm)
Package Size(L×W×H)	86×86×25(mm)
Weight (G.W.)	40g

Wire Specifications

Thin Multi-strand Wires

Thin Multi-strand Wires + Soldering

Single Strand Wire

Wire diameter: 0.5-1.5[□] [20-16AWG]

Thin Multi-strand Wires with Insulated/
Uninsulated Cold-welded Cable Joint

Wire diameter: 0.5-0.75[□] [22-18AWG]

Installation Precautions

Please do not stack the products. The distance between two products should be $\geq 15\text{cm}$ so as not to affect heat dissipation and the lifespan of the products.

Please do not place the products on the floor. The distance between the product and the floor should be $\geq 100\text{cm}$ so as to avoid signal interference.

Please do not place the products near a large area of metal objects (such as metal stud ceilings). The distance between the product and the metal object should be $\geq 15\text{cm}$ so as to avoid signal interference.

Please do not install the products on beams or near the corners. The distance between the product and the beam or the corner should be $\geq 15\text{cm}$ so as to avoid signal interference.

Recommended Applications

1. Wireless control.

2. Both App and remote can control the wireless module after connecting the remote to wireless module via App.

3. Visual control + remote control of traditional panels.

4. More applications of intelligent control are waiting for you to set up.

App Operating Instructions

1. Register an account

1.1 Scan the QR code below with you mobile phone and follow the prompts to complete the app installation.

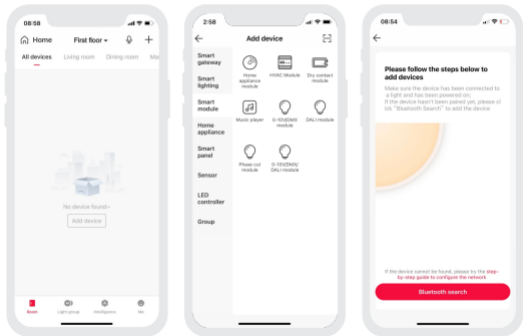

Scan and download the App

1.2 Open the App and log in or register an account.

2. Pairing instructions

Create a home if you are a new user. Click "+" icon in the upper right corner and access the "Add device" list. Pick "Phase cut module" from the list. Follow the prompts to connect the device to a lamp and power it on first. Make sure the device is not connected to the network. Then click "Bluetooth search" and follow the prompts to add the device.

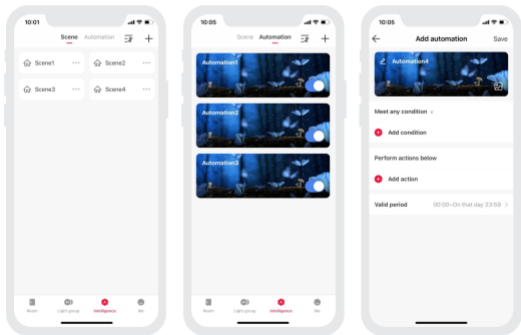

3.Control interface settings

After pairing your device, go to the control interface. You'll be able to achieve your desired lighting effects by changing brightness. Click "Theme" and you'll easily switch to multiple theme lighting effects with one tap. Click "Mode" and the App provides you editable advanced modes. Customize dynamic modes to put you into a more colorful life.

4. Advanced functions

This product can be linked up with a gateway device (such as Super Panel) to achieve advanced functions, such as cloud scenes, automation.

FAQs

1. What should I do if I fail to search the device via APP?

Please check below:

- 1.1 Please make sure the device is powered on normally and is in the activated state.
- 1.2 Please keep you mobile phone and device as close as possible. The recommended distance between them is no more than 15 meters.
- 1.3 Please make sure the device hasn't been added yet. If it has, please reset the device to factory defaults manually.

2. How to reset the device to factory defaults?

Turn it off with the switch. After 5s, turn it on. After 2s, turn it off again. Repeat the same operation 6 times. When the lamp flashes 5 times, reset it to factory defaults successfully.

Attentions

- Products shall be installed by qualified professionals.
- LTECH products are non-waterproof (special models excepted). Please avoid the sun and rain. When installed outdoors, please ensure it is mounted in a water proof enclosure.
- Good heat dissipation will extend the working life of products. Please ensure good ventilation.
- Please check if the working voltage used complies with the parameter requirements of products.
- The diameter of wire used must be able to load the light fixtures you connect and ensure the firm wiring.
- Before you power on products, please make sure all the wiring is correct in case of incorrect connection that causes damage to light fixtures.
- If a fault occurs, please do not attempt to fix products by yourself. If you have any question, please contact your suppliers.

* This manual is subject to changes without further notice. Product functions depend on the goods. Please feel free to contact our official distributors if you have any question.

Warranty Agreement

Warranty periods from the date of delivery : 2 years.
